INTRODUCTION

The DOD Warfighter, Information Operations, and YOU must be protected. Our Information Operations must be assured! JITC can help.

The JITC Information Assurance (IA) Test & Evaluation (T&E) laboratories provide a robust test capability for your needs. You need to know how to protect yourself, detect unauthorized activity, react to an intrusion or disruption, and quickly restore your mission critical capabilities. Call JITC today for a confidential consultation.

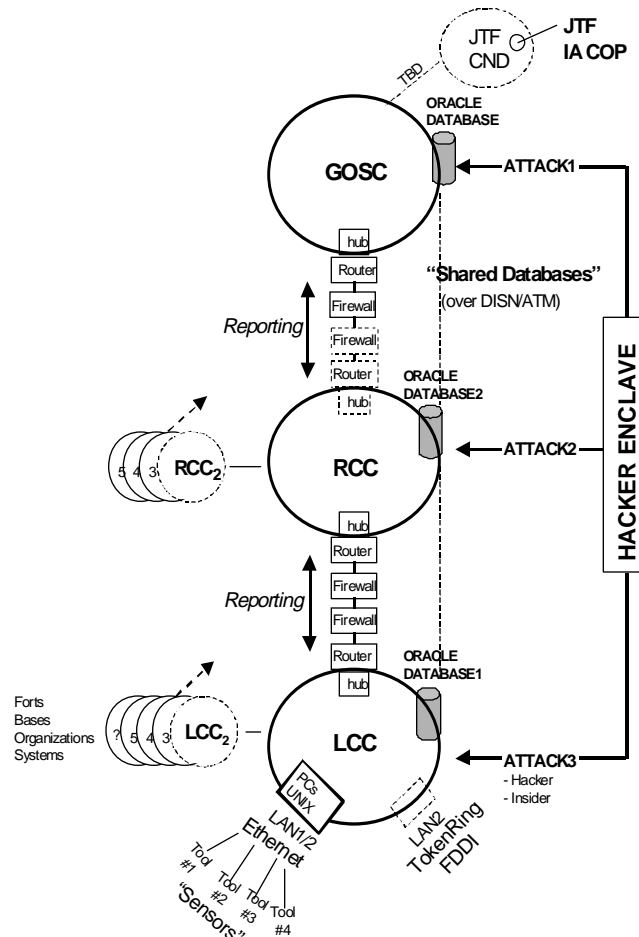

T&E CAPABILITIES

Listed below are only a few high interest IA items we support:

- ◆ Configuration Assessments
- ◆ Vulnerability and Risk Assessments
- ◆ Penetration Tests (Hacker/Trusted Insider)
- ◆ Assessments (Hardware, System, Network, Process, and Organization)
- ◆ IA Common Operational Picture (IA COP)
- ◆ SMI and PKI Test Support
- ◆ EKMS Test Support
- ◆ Smart Card Support
- ◆ Security Tool Assessments
- ◆ Encryption Support
- ◆ General Technical Consultation
- ◆ Exercise Support

IA PRODUCTS & SERVICES

The JITC is postured to provide full IA support on a fee for service basis, either inhouse at its IA Lab or through collaborative relationships with other Major Range and Test Facilities Bases (MRTFBs), and DOD T&E organizations. The JITC has the ability to test over the mini-DII structure shown, to include added hacker realism.

LEGEND

ATM - Asynchronous Transfer Mode
CND - Computer Network Defense
COP - Common Operational Picture
DISN - Defense Information Systems Network
FDDI - Fiber Distributed Data Interface
GOSC - Global Operations & Security Center
IA - Information Assurance
JTF - Joint Task Force
LAN - Local Area Network
LCC - Local Control Center
PC - Personal Computer (NT)
RCC - Regional Control Center

OPERATING ENVIRONMENT

The JITC IA Laboratory

- ◆ Comprised of various operating system platforms, NT and Unix.
- ◆ Networked over a three-tier network architecture, much like a mini-DII or IA COP environment.
- ◆ Possesses the capability to replicate almost any DOD environment required.
- ◆ Fully operational DOD PKI Test Laboratory.
- ◆ Fully operational EKMS "Testpack" Laboratory.

JITC is also available to travel to your site to view your unique setup.

ARCHITECTURES

The JITC IA T&E capabilities are suitable and flexible to any architecture, DOD and private sector, be it system, process, or network (tactical or strategic).

INTERNET TECHNOLOGIES

The JITC IA Laboratory possesses many Web and Internet technologies. Our testers are trained in Java, JavaScripting, HTML, PERL, web servers, encryption, and general leading-edge Internet technologies.

ARE YOU PROTECTED?

The assurance of Warfighter Information Operations and interoperability is critical. Are your operations protected? How do you find out? Let the JITC assist you. We know how to baseline your assurance environment, compare it to what's required, and tell you the affordable solutions and countermeasures. The JITC is committed to meeting Warfighter information needs by providing DOD an aggressive IA edge.
